GENERAL INFORMATION

ON-SITE REGISTRATION HOURS

THURSDAY
September 29
7:00am - 11:00am
1:00pm - 8:00pm

FRIDAY
September 30
7:00am - 6:00pm

SATURDAY
October 1
7:30am - 6:00pm

SUNDAY
October 2
7:30am - 4:00pm

EXHIBIT HALL HOURS

THURSDAY
September 29
Exhibit Hall Grand Opening
7:00pm - 9:00pm

FRIDAY
September 30
9:00am - 6:00pm

SATURDAY
October 1
9:00am - 6:00pm

SUNDAY
October 2
9:00am - 2:00pm

REGISTRATION

Attendees will be required to sign in at the registration desk and in the lab rooms before participating.

LABORATORIES

Check your welcome letter for the labs for which you registered. Attendees' names will be on a sign in sheet in the each room. Be sure to sign in! All labs are located in the Minneapolis Convention Center, see page 7. To register for an available lab on-site, visit the registration desk.

CONTINUING EDUCATION CREDITS

Attendees of the Veterinary Dental Forum can earn up to 26 hours of continuing education (CE). A certificate is provided in your attendee packet. Attendees must sign an attendance roster at registration for possible replacement of lost CE forms in the future.

NAME BADGES

Name badges will be required for participation in all sessions, workshops, laboratories and the exhibit hall. Badges are included in your conference materials received at the meeting registration desk and are only available for registered attendees and registered guests.

MORNING AND AFTERNOON BREAKS

An early morning coffee and tea station will be provided in the Marquette Ballroom foyer each morning prior to the start of presentations. Mid-morning and afternoon breaks with beverages will be provided in the Exhibit Hall.

LUNCHESES

Box lunches (on Friday and Saturday), are included with Forum registration. Attendees were asked to indicate whether they would like to receive a box lunch on the registration form. Lunch will be from 12:10pm-1:30pm to allow additional time to visit the exhibits. Lunch on Sunday is "on your own." Attendees will find many dining options within a five minute walk. Please see your attendee packet for a list of nearby options.

CANCELLATIONS AND REFUNDS

Cancellations and refunds are no longer permitted. A charge of \$50 will be assessed for each change made in laboratory selections.

PRINT STATION

To print notes from the proceedings USB, a print station will be located near the VDF Registration Desk for your convenience.

CYBER CAFÉ

The Veterinary Information Network (VIN) is once again sponsoring a Cyber Café which is located in the Minneapolis Ballroom foyer.

2016 PROCEEDINGS BOOK

The 2016 digital Proceedings is available online for a limited time. Please see our website for the link.

2015 USB

Limited 2015 VDF Monterey Proceedings USBs will be available for purchase at the registration desk for \$35.

NO VIDEOTAPING is permitted in any sessions or labs.

DOOR PRIZE WINNERS will be posted on the memo board located near the registration desk.

TICKETS* purchased for events can be found in your attendee packet.

**Tickets required for On the Cusp Lecture and Guest Welcome Reception.*

SPECIAL MEETINGS & EVENTS

CURRENT AS OF PRINTING

Consult a map of the meeting space on page 6 for room locations, labs will be at Minneapolis Convention Center, page 7.

* = Separate, pre-registration or ticket required.

The following schedule is subject to change.

WEDNESDAY, SEPTEMBER 28, 2016

6:00pm - 10:00pm Symphony I & II Review & Assessment

THURSDAY, SEPTEMBER 29, 2016

8:00am - 12:00pm	Marquette I - III	*Advanced Lecture "On the Cusp" (Session 1 - 8 to 9:45am, Session 2 - 10:15 to 12:00pm)
1:00pm - 1:30pm	Marquette I - III	AVDC Annual Business Meeting-presentation of Certificates
1:30pm - 3:30pm	Marquette I - III	Joint AVDC Annual Meeting
2:00pm - 4:30pm	Symphony I & II	AVDT Member-Only Meeting
3:30pm - 4:30pm	Marquette I - III	Diplomate-only College Annual Meeting
5:00pm - 6:30pm	Marquette I - III	F4VD General Meeting
5:00pm - 7:00pm	Symphony III	Equine Diplomate Annual Meeting
5:00pm - 6:00pm	Symphony I & II	AVDT Pinning Ceremony and Refreshment Break
7:00pm - 9:00pm	Minneapolis BR	Welcome Reception and Exhibit Hall Grand Opening

FRIDAY, SEPTEMBER 30, 2016

8:00am - 5:30pm	MCC Room 101 A-H	Laboratories (Convention Center-See map page 7)
8:00am - 12:00pm	Duluth	Specialists in Training (SIT) Lecture - Dr. Sandra Manfra Marretta, DVM, DACVS, DAVDC
9:00am - 6:00pm	Minneapolis BR	Exhibit Hall open
9:00am - 6:00pm	Red Wing	Fun Run Shirt & Bib pickup
12:10pm - 1:30pm	Minneapolis BR	Box lunches provided in exhibit hall
12:10pm - 1:30pm	Marquette BR IV, V	Exam Comm. Informational Mtg. for Registered Trainees
12:10pm - 1:30pm	Marquette BR VI	WVDC Meeting
2:30pm - 3:30pm	Duluth	Training Support Comm. (TSC) Informational Meeting for Residents (non-equine specific)
3:20pm - 3:50pm	Rochester	Poster Presenters Q&A Session
5:40pm - 6:30pm	Symphony I, II	AVDT Mentee Presentations (Open to all)
5:40pm - 6:30pm	Duluth & Foyer	Friday Social Mixer
6:30pm - 7:15pm	Duluth & Foyer	Awards Ceremony
7:00pm - 9:30pm	Symphony I, II	AVDT 10th Anniversary

SATURDAY, OCTOBER 1, 2016

6:30am - 7:30am Hilton Lobby *Fun Run/Walk - See registration packet for instructions
The Fun Run/Walk is not a race, it is based on individual predicted times. Awards will be given to those who finish closest to their predicted time (not necessarily the fastest!). This event is a great way to showcase and celebrate your personal fitness goals and achievements.

6:30am - 7:30am	Marquette VI	Credentials Training Support Meeting TSC
8:00am - 5:30pm	MCC Room 101 A-H	Laboratories (Convention Center-See map page 7)
9:00am - 6:00pm	Minneapolis BR	Exhibit Hall open
9:50am - 10:20am	Rochester	Poster presenters Q&A Session
12:10pm - 1:30pm	Minneapolis BR	Box lunches provided in exhibit hall
12:10pm - 1:30pm	Marquette VII, VIII, IX	JVD Reviewers' Meeting (Open to all)
12:30pm - 1:30pm	Marquette I - III	Information Meeting for Veterinarians Considering Pursuing Certification by AVDC
5:40pm - 6:40pm	Symphony I - II	AVDT General Interest Meeting
5:40pm - 6:30pm	Duluth	Saturday Social Mixer
6:30pm - 7:30pm	Duluth	Foundation Live Auction

SUNDAY, OCTOBER 2, 2016

6:30am - 8:00am	Symphony I - II	AVDT Mentees Meeting
7:00am - 8:00am	Marquette I - III	AVD Trackers Information Meeting
8:00am - 5:30pm	MCC Room 101 A-H	Laboratories (Convention Center-See map page 7)
9:00am - 2:00pm	Minneapolis BR	Exhibit Hall open
12:10pm - 1:30pm		Lunch on your own
5:40pm		Adjourn

GUEST SPEAKERS

Advanced Lecture “On the Cusp”

“Using Teaching and Learning Principles to Improve Outcomes in Veterinary Medicine”

VDF is pleased to welcome Dr. Robert Fox, Professor Emeritus, University of Oklahoma.

Professor Robert Fox is Professor Emeritus of Educational Leadership and Policy Studies at the University of Oklahoma in Oklahoma, USA. He is also Adjunct Professor of Family Medicine at the University’s Health Science Center. Professor Fox was Project Director of the study – “Changing and Learning in the Lives of Physicians”. The book reporting the results proposes a theory of learning and change.

Professor Fox has authored or co-authored more than 100 articles, book chapters, papers and invited presentations. He was Editor of the Journal of Continuing Education in the Health Professions and has published many books as an author or co-editor, including “The Physician as Learner (1994)” and “The Continuing Professional Development of Physicians: Integrating Theory and Practice (2003)”. In a University of Wisconsin’s study of the most important books and journals in continuing medical education (CME), his three books were ranked number one through three. His most recent book with Piet DeBoer, “Changing patterns of lifelong learning: a study of surgical education” reports a global study of learning.

Professor Fox also has a research award named for him – The Robert Fox Award – from the Society for Academic CME for best research paper. He has received numerous awards and named visiting professorships, such as the Rosenstadt Visiting Professor of Medicine at the University of Toronto and the prestigious Coppelson Orator by the Federation of Medicine of Australia. He is also a recipient of the Francis Maitland Award, the Distinguished Service Award and the Special Award for Research from the Society for Academic CME.

This lecture is a ticketed event, additional registration fee required. (2 hours CE)

Specialists in Training - Surgery

Lecture: Friday, September 30th, 8:00am-12:00pm, DULUTH ROOM

Lab: Sunday, October 2nd, 8:00am-11:00am, MCC ROOM 101 G

This lab attendance is limited to AVDC Trainees only and requires an additional registration fee.

Dr. Sandra Manfra Marretta, DVM, DACVS, DAVDC

“Recognition and Management of Benign and Malignant Oral Tumors”

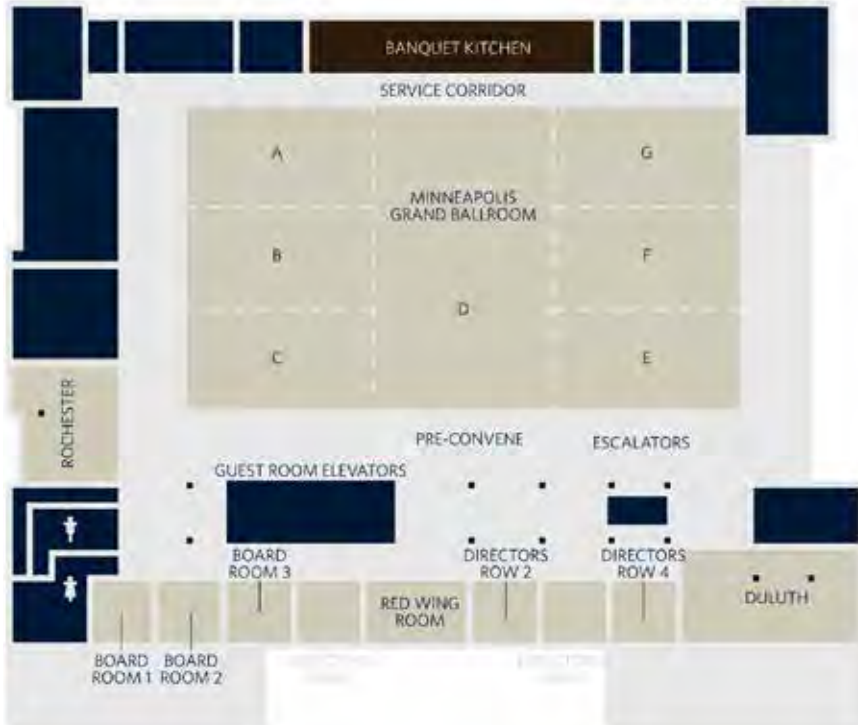

Dr. Manfra Marretta earned her DVM degree from Cornell University in 1977.

She is a Diplomate of the American College of Veterinary Surgeons and a Charter Diplomate of the American Veterinary Dental College. She is a Professor Emerita in Small Animal Surgery and Dentistry at the University of Illinois.

2016 VDF PROGRAM GRID - FRIDAY LECTURES

TIME	FUNDAMENTALS MARQUETTE I, II, III	INTERMEDIATE SYMPHONY III	ADVANCED MARQUETTE VII, VIII, IX	MARKETING/MANAGEMENT MARQUETTE IV, V	ZOO/WILDLIFE/EXOTICS MARQUETTE VI	TECHNICIAN SYMPHONY I, II
8:00-8:50am	Anatomy of the Head (B Hall)	The Key to Successful Dentistry (E Eisner)	Interfragmentary Wiring for Maxillofacial Fracture Repair Technique, Limitations and Clinical Applications (R Boudrieau) Pre-requisite for Interfragmentary Wire Techniques Lab - Friday, 1:30pm	Everybody Needs a Plan: Dispelling the Myths of Estate Planning (F Wood)	Felform Teeth Origin and Evolution (A Duke)	Fancy Feline Dentistry (P March)
9:00-9:50am	The Origins of Teeth (A Duke)	Dentistry "The Next Frontier" (B Niemiec)	Maxillary Fracture Repair Techniques (K Taney) Pre-requisite for Maxillary Fracture Fixation Lab - Saturday, 8:00am	Planning Ahead: Is Your Estate in Order? Test Your Estate Planning IQ (F Wood)	Zoo Dentistry Armamentarium (D Winter)	Mutant Dentistry - From Pugs to Persians (P March)
9:50-10:20am	Break with Exhibitors - Minneapolis Ballroom					
10:20-11:10am	It's all about the Tooth (L Sasser)	Top 10 Tips & Techniques for Dental Extractions and Oral Surgery (E Brine)	Endodontics: The Root of the Problem (D Hansen)	Financial Life Planning for Veterinarians (F Wood)	Dental Radiography in Zoo Animals (D Winter)	Pediatric Dentistry for the Veterinary Technician (B Altier)
11:20-12:10pm	COHAT (T Jacobson)	Yikes! Now What? Reasons to Stage Dental Procedures (E Brine)	Comparison of Endodontic Findings in CBCT and Dental Radiographs in Dogs (H Kuntsi-Vaattovaara)	Common Pitfalls in Veterinary Dentistry Management (L Sasser)	Periodontal Disease in a Group of Lowland Gorillas and Chimpanzees (D Winter)	Concepts in Veterinary Dental Radiology (J Mendenwaldt)
12:10-1:30pm	Box Lunches available in exhibit hall for registered attendees and exhibitors (1 each) **See schedule on page 4 for meetings held over the lunch hour.					
1:30-2:20pm	A Dog's Life; Review of Canine Dentistry (B Mulherin)	How and Why I Remove Deciduous Mandibular Canines in Canines (N Johnston)	Orthodontics in Veterinary Dentistry: The Science Beyond the Ethics Part I (I Luskin)	How to Talk to Your Clients About Dentistry (B Niemiec)	Chimp Talk (T Brandon Abbatangelo)	Save THAT Tooth – Endodontics for the Veterinary Technician (A Edwards)
2:30-3:20pm	Understanding the Science Behind Dental Products (M Berg)	Lingoversion of the Permanent Canines - How I Perform Crown Amputation and Partial Coronal Pulpotomy (N Johnston)	Orthodontics in Veterinary Dentistry: The Science Beyond the Ethics Part II (I Luskin)	Women do it Differently - Managing Conflict in the Veterinary Workplace (M Lommer)	Marine Mammal Dentistry (S Holmstrom)	Are Crowns ONLY for Royalty? – Prosthodontics for the Veterinary Technician (A Edwards)
3:20-3:50pm	Break with Exhibitors (Minneapolis Ballroom) and Poster Presenters Q&A Session (Rochester Room)					
TIME	FUNDAMENTALS MARQUETTE I, II, III	INTERMEDIATE SYMPHONY III	ADVANCED MARQUETTE VII, VIII, IX	MARKETING/MANAGEMENT MARQUETTE IV, V	ZOO/WILDLIFE/EXOTICS MARQUETTE VI	TECHNICIAN SYMPHONY I, II
3:50-4:40pm	Cutting, Drilling and Filling Equipment, Materials and Techniques (J Bellows)	Surgical Extractions and Managing Complications (B Niemiec)	Crown Extensions: A Useful Technique for Many Indications (H Kuntsi-Vaattovaara)	Controlled Substances - What you Really Need to Know! (M Berg)	Large Carnivore Dentistry (S Holmstrom)	I Like to Move it Move it - Orthodontics for the Veterinary Technician (A Edwards)
4:50-5:40pm	The Dental Examination Before Anesthesia (J Bellows)	Endodontic Complications, their Avoidance and Repair (B Niemiec)	The pathology of oral trauma: Patterns of Injured and Reactive Tissues (C Bell)	Talk to 'em! Client Communication (M Berg)	Beakistry (D Winter)	Chew on This – Debunking Common Dental Myths (L Bird)

2016 VDF PROGRAM GRID - SATURDAY LECTURES

TIME	FUNDAMENTALS MARQUETTE I, II, III	INTERMEDIATE SYMPHONY III	ADVANCED MARQUETTE VII, VIII, IX	MARKETING/MANAGEMENT MARQUETTE IV, V	EQUINE MARQUETTE VI	TECHNICIAN SYMPHONY I, II
8:00-8:50am	Common Oral Pathology in the Dog and Cat (P Vall)	Advanced Periodontal Treatment: What is possible, and when is it appropriate (H Lobprise)	Real Life Monitoring: Part I (A Hawley)	The Best Staff- Techniques to Find the Best and the Brightest (D Boone)	Bacteriology and Antibiotic Use in Equine Oral Surgery (M Evans)	Becoming a Dental Concierge (B Niemiec)
9:00-9:50am	A Healthy View of Dentistry (C Carter)	Treatment Options for Teeth with Periodontitis: What to Expect? (Y Dumais)	Real Life Monitoring: Part II (A Hawley)	The Best Staff: Finding, Interviewing & Background Checks (D Boone)	Local Anesthesia in Equine Dentistry (E Schilling)	Common Oral Pathology for the Veterinary Technician (B Niemiec)
9:50-10:20am	Break with Exhibitors (Minneapolis Ballroom) and Poster Presenters Q&A Session (Rochester Room)					
10:20-11:10am	Managing Pandora's Box (C Carter)	Intraoral Mandibular Fracture Repair: How Anatomy Comes in to Play (B Hall)	The Art of Anesthesia for the Veterinary Dental Patient (A Hawley)	The Best Staff – Personality Matching (D Boone)	Restrospective Study of a Novel Technique to Aid in the Extaction of Equine Cheek Teeth (M Rice)	Crown Therapy for Veterinary Technicians – Preparation to Cementation (J Mendenwaldt)
11:20-12:10pm	Dental Radiography Simplified (B Niemiec)	Zebbras You'll Want to Know Better (J Lewis)	Anesthesia for the Dental Patient Beyond ASA 1 (A Hawley and M Lommer)	Performance Reviews –How to do Effective Reviews (D Boone)	Standing Oral Extraction of Equine Maxillary Check Teeth with Sagittally Complicated Crown-Root Fractures (R Pascoe)	Creating an Effective Oral Care Regimen (P Dominguez)
12:10-1:30pm	Box Lunches available in exhibit hall for registered attendees and exhibitors (1 each) **See schedule on page 4 for meetings held over the lunch hour.					
1:30-2:20pm	Feline Shades of Grey (B Hall)	Ergonomics and Four-Handed Dentistry (A Duke)	1:30-1:55pm A Longitudinal Assessment of Periodontal Disease in Mini Schnauzers and Lab Retrievers (C Wallis) 2:00-2:25pm Assessment of Dental Plaque Coverage in Domestic Short-Haired Cats Quantitative Light-induced Fluorescence (C Wallis)	Drama and the Boss - How to Deal with Toxic Bosses (L Dunn)	Restrospective Study of the Prevalence of Wolf Teeth in Juvenile Horses (S Odenweller)	The Technician's Role to Maximize Workflow in the Dental Service (A Mills)
2:30-3:20pm	Local Anesthetic Blocks... What you Should Know (S Babbitt)	Restorative Anatomy (P Theuns)	2:30-2:55pm Influence of Axial Grooves on the Dislodgment Resistance of Prosthetic Metal Crowns in Dogs (S Goldschmidt) 2:55-3:20pm Fortigen™-P: A Novel Osteoinductive Bone Graft for Dental Applications: Moving Beyond the Clot (H Newman)		Equine Head and Oral Radiography (R Pascoe)	Incorporating Cat Friendly Practice Techniques into Your Dental Service (J Yaroslav)
3:20-3:50pm	Break with Exhibitors - Minneapolis Ballroom					
3:50-4:40pm	Extractions – Difficult Extractions Made Easy (N Johnston)	Orthodontic Tooth Movement (P Theuns)	3:50-4:20 Assessment of Mandibular Fractures in Young Dogs (2000-2015) (A Castejon) 4:20-4:45 Crown Preservation of the Mandibular First Molar Tooth Impacts the Strength and Stiffness of Non-Invasive Fracture Repair (C Lothamer)	You Can Have Quality & Efficiency (L Dunn and P Camilo)	Radiographic Evaluation of the Types and Stage of Incisor Tooth Resorption and Hypercementosis in Horses (M Rice)	Getting Clients to Bite! – Part 1 - Promoting Dentistry to Your Staff and Your Clients (P Dominguez)
4:50-5:40pm	Overlooked Dental Care Products (E Brine)	Differential Diagnoses for Inability to Close the Mouth in Cats (I Velazquez-Urgel)	4:50-5:15 Radiographic Assessment of the Temporomandibular Joint in the Cat by Means of the Ventrolateral and Lateral Nose-up Views (L Arturo Villamizar Martinez)		Equine Odontoclastic Tooth Resorption and Hypercementosis: Hematology (E Earley)	Getting Clients to Bite! – Part 2 - Addressing All of your Client's Concerns About Dental Procedures (P Dominguez)

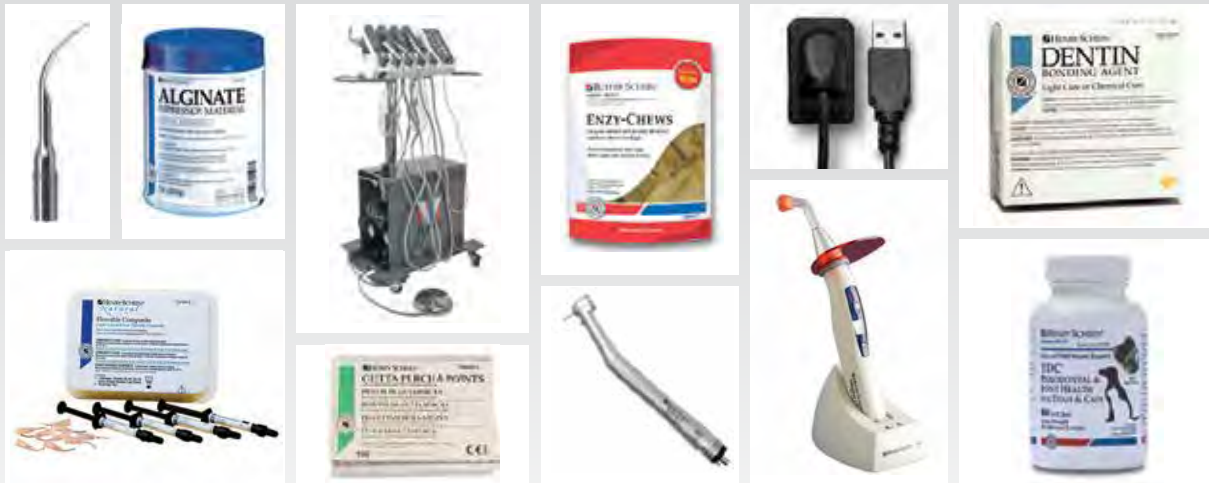

2016 VDF PROGRAM GRID - SUNDAY LECTURES

TIME	FUNDAMENTALS MARQUETTE I, II, III	INTERMEDIATE SYMPHONY III	RESEARCH IN VETERINARY DENTISTRY MARQUETTE VII, VIII, IX			TECHNICIAN SYMPHONY I, II
8:00-8:50am	Emergencies and Urgencies in Veterinary Dentistry and Oral Surgery (E Vicari)	Malocclusions: What Do I Need to Know in General Practice? (D Hansen)	8:00-8:25am Tooth Luxation in Cats Causing Difficulty to Close the Mouth (2000-2015) (I Velazquez-Urgel) 8:25-8:50am Malocclusion Management in Cats (H Correa)			Keep Calm and Get Your Pain Management On! (C Motz)
TIME	FUNDAMENTALS MARQUETTE I, II, III	INTERMEDIATE SYMPHONY III	CLINICAL BRIEF REPORTS MARQUETTE VII, VIII, IX			TECHNICIAN SYMPHONY I, II
9:00-9:50am	Feline Extraction Techniques (B Niemiec)	Laser, Electrosurgery, or Radiosurgery? – A Review and Comparison (E Domnick)	9:00-9:20am Malignant Transformation of Canine Viral Papilloma Type-1 to an Oral Squamous Cell Carcinoma (A Regalado) 9:25-9:50am Epithelial Odontogenic Tumor in a Canine (D Hodesson)			What Stage Is It and Why? Staging Periodontal Disease (W Rensman)
9:50-10:20am	Break with Exhibitors - Minneapolis Ballroom					
10:20-11:10am	Oral Pathology of the Dog and Cat (E Ribka)	Sticking to the Tooth: A Guide to Composite Restoratives and Bonding Agents (E Domnick)	10:20-10:50am Unusual Presentation of a Feline Oral Sarcoma (B Niemiec) 10:50-11:10am Very Aggressive but Benign Growth in a Dog (B Niemiec)			Regional Oral Nerve Blocks (T Jacobson)
11:20-12:10pm	Brachycephalic Oral Care (B Hall)	Practical Use and Manipulation of MTA: Modern Day Alchemy (B Hewitt)	11:20-11:45am Multiple Tumors in a Labrador Retriever (E Ribka) 11:45-12:10pm Severe, Necrotizing, Ulcerative, and Suppurative Osteomyelitis in a Cocker Spaniel (E Ribka)			Power Scaling from A-Z (J Hernandez-Eliason)
12:10-1:30pm	Lunch on your own. Exhibits close at 2:00pm. **See schedule on page 1 for meetings held over the lunch hour.					
1:30-2:20pm	Molar Extractions in the Dog and Cat (P Vall)		2:00PM - VOHC Trials - Plaque and Calculus Scoring - Progress in Developing an Objective System (C Harvey, VOHC Director and Colleagues)			A Technician's Role in Understanding Tooth Resorption (P Dominguez)
2:30-3:20pm	Overcoming Objections (C Carter)					Anesthesia and Pain Management for the Dental Patient (P Dominguez)
3:20-3:50pm	Break on your own. (Exhibits closed)					
3:50-4:40pm	Dental Care for Senior Pets (H Lobprise)					
4:50-5:40pm	Feline Dental Support Group (H Lobprise)					

Welcome to the 30th Annual Veterinary Dental Forum!

We are proud to once again be the Premier Sponsor of the
Veterinary Dental Forum Wetlabs!

Rely On Us for All Your Dental Equipment & Supplies

Select from top national brands or save without compromising on excellence, with our own high-quality Henry Schein Brand. We offer many solutions to meet the needs of all veterinary dental procedures. And, you can have absolute confidence they'll measure up to your standards, because they have already met our high standards to earn the Henry Schein Seal of Excellence.

Henry Schein Brand products offer:

- 100% guarantee of satisfaction
- Huge savings on the products and supplies you use most
- High quality and high value
- Broad selection – **more than 5,000 Henry Schein Brand products ... and growing**

Visit us at Booth #501/600.

**There's a more effective way
to help prevent hypothermia.**

The induction of anesthesia can cause a rapid drop in core body temperature and increase the risks associated with unintended hypothermia. 3M™ Bair Hugger™ therapy offers a simple, proven way to prevent and treat unintended hypothermia by actively warming your patients during surgery. So you can keep them warm without going to extremes.

Visit us at VDF Booth 700 to learn more.

School of Veterinary Medicine

Awards will be presented to the top three poster presenters at the Awards Ceremony on Friday, September 30th.

*Authors will be by their posters in the Rochester Room for Question & Answer Sessions
during the afternoon break on Friday and the morning break on Saturday.*

LABORATORIES AND SCHEDULE

SUBJECT TO CHANGE

Veterinary dentistry is a complex specialty which requires years of education, training and practice. The wet labs and workshops offered by the Veterinary Dental Forum help practitioners to more effectively diagnose and intercept dental problems and treat or refer them appropriately. The lectures and labs (fundamental, intermediate and advanced) are designed to be educational, practical and interesting for those just getting started as well as for those well established in the field of dentistry. Pre-registered attendees will be required to sign in at each lab.

Feline Extraction Lab - Feline extractions are technically difficult. After a brief Power Point introduction, attendees will get right to work on cadavers for hands-on learning with personal attention from a board certified veterinary dentist and his assistants. Limited to 30 participants. This lab will be presented twice by different presenters. *Check schedule on page 17 for times.*

Canine Radiography Lab - "Positioning for Perfect Rads"- Veterinary dental radiography, in particular positioning is one of the most frustrating aspects of veterinary dentistry. The bisecting angle technique can be demanding and difficult to perform consistently. Positioning the patient, the sensor, and the tube head to create quality images can be challenging. A simplified approach can consistently produce quality images with less confusion if a few principles are followed and some variables removed. Limited to 20 participants. **(Techs and DVMs)** This lab will be presented twice by different presenters. *Check schedule on page 17 for times.*

"Fill" Me in on the Latest in Restorations - A one hour lecture, then hands-on laboratory covering the basic equipment and materials with step by step instructions for dentin bonding and composite restorations. Indications, diagnostics, and contra-indications for restorations will be covered. Following the lecture, participants will be given the opportunity to apply dentin bonding, prepare cavity preparations, fill preparations with composite materials and finish the restorations. Limited to 30 participants.

Regional Nerve Blocks for Dental Patients - This lab will teach the attendee some very practical, safe and cost-effective ways of controlling pain during and long after oral surgery. You will learn to block strategic nerve points within the oral cavity. The use of opioids in conjunction with a local anesthetic will be discussed to extend the duration of the analgesia well into the next day(s). Many of the new multimodal pain management options will be thoroughly discussed. Limited to 30 participants. This is a two hour lab. It will be presented twice. *Check schedule on page 17 for times.*

Comprehensive Periodontal Technique, Debridement & Instrumentation Used in the Treatment of Periodontal Disease - This lab will cover instrument selection, usage and care for the treatment of periodontal disease, inclusive of charting, identification of visual oral pathology, treatment planning, the use of ultrasonic and hand instrumentation, sharpening techniques, open and closed flap root planing and an overview of home care, the mainstay of oral health. This is a hands-on wet lab, utilizing extracted teeth, skulls and cadavers to recognize and treat pathology. An entry level for both veterinarians and technicians who are providing, or planning to expand dental services in

their practice. A lecture will precede the hands-on portion. Limited to 30 participants.

Fundamentals of Canine Dental Extractions - This lab will teach participants how to surgically remove the most common teeth extracted in the canine patient: maxillary and mandibular canines and carnassials. The proper instruments used to create flaps that are tension free and more easily closed will be shown. Types of suture and needles will be discussed. The question of "how much bone can I remove" will be answered. After this lab each veterinarian will have new skills that they can use when they return to their practice. Limited to 30 participants. This is a four hour lab. It will be presented twice by different presenters. *Check schedule on page 17 for times.*

Feline Radiography Lab - This lab will cover the positioning and interpretation of intraoral digital dental radiographs of cats. A study from 1998, showed that teeth that appeared normal, had 41% significant findings upon radiographs and the abnormal teeth, had 53% additional findings. It is estimated that 70% of cats, over the age of 3 years, have some form of periodontal disease and that 30-50% of cats have tooth resorption. Therefore, without dental radiographs, we may be missing dental disease in over half of our feline patients. Limited to 20 participants. **(Techs and DVMs)** This is a two hour lab. It will be presented twice. *Check schedule on page 17 for times.*

Interfragmentary Wiring Techniques for Challenging Mandibular Fracture Repairs - Situations arise where various fracture repair techniques are possible for the restoration of occlusion and quick return to function. Advantages and disadvantages exist for both intraoral techniques for stabilization as well as techniques of open reduction internal rigid fixation using a ventral surgical approach to the mandible. This advanced laboratory is designed to discuss the implementation and practice of interfragmentary wiring techniques for the repair of challenging 2-piece and 3-piece mandibular fractures. Limited to 30 participants.

Regional Nerve Blocks and Periodontal Therapies for Technicians - This is a hands on lab in which attendees will learn the technique for delivering an effective regional nerve block for the dental patient. Periodontal therapies and hand instrumentation will also be taught. Instrument sharpening techniques will be demonstrated as well. Limited to 30 participants.

Maxillary Fracture Fixation - This laboratory will focus on maxillofacial fracture repair using various techniques such as interdental wiring, maxillomandibular fixation, and interfragmentary wiring. An introductory lecture will be given at the beginning of the laboratory. The focus

LABORATORIES AND SCHEDULE

CONTINUED...

of the lecture will be mostly on maxillofacial trauma and achieving normal occlusion, a cornerstone of jaw fracture repair. Limited to 30 participants.

Surgical Endodontics - This laboratory will cover the techniques of surgical endodontics for canine patients. This will include canine and carnassial teeth. Indications (and contraindications) approach, trephination, retroprep and retrofill. Limited to 30 participants.

Crown Preparations - Hands on laboratory covering crown preparation, impressions and stone models. Prosthodontics is the dental specialty pertaining to the diagnosis, treatment planning, rehabilitation and maintenance of the oral function, comfort, appearance and health of patients with clinical conditions associated with missing or deficient teeth and/or oral and maxillofacial tissues using biocompatible substitutes. Limited to 30 participants.

Dental Photography Lab - Attendees will learn how to obtain the best photography views of awake and anesthetized patients. The camera settings to optimize proper the color and overall appearance of the image will be taught. A manageable workflow will be covered from start to finish; from obtaining the image to getting the image into documents and records. Design of custom templates for treatment plans, medical records and client release instructions will be included. Using your X-ray images alongside of your photo images in custom documents will be part of this lab. Limited to 20 participants.

How to Really Read that Radiograph - Evaluating what lurks below the gum line paves the course of what needs to be done to help our patients. This presentation will look deeply into intraoral radiology interpretation with focus on periodontal, endodontic, tooth resorption and neoplastic disease in clinical cases. Limited to 20 participants. *This is a two hour lab. It will be presented twice. Check schedule on page 17 for times.*

Dealing with Complications of Extractions (Root tip removal, Oronasal Fistulae, etc.) - Participants will have the opportunity to practice techniques for dealing with complications of surgical extractions in dogs and cats.

1. Demonstration and practice of techniques for efficient removal of fractured root tips. Participants will have the opportunity to use a wide variety of instrumentation including dental elevators, luxators, periosteal elevators, periotomes, luxating-type elevators with modified periotome tips. Instruments will be available that allow for atraumatic removal of root tips, including root tip elevators, root tip forceps and surgical-length burs.
2. Oronasal Fistula Repair. Closure of iatrogenic maxillary canine tooth oronasal fistulae will be discussed and practiced.
3. Iatrogenic rostral mandibular fracture repair. Discussion and practice of approaches toward iatrogenic rostral mandibular instability in cats. Limited to 20 participants.

Specialists in Training: Surgery- Maxillectomy Techniques in the Dog - This laboratory will provide participants with a step-by-step guideline on how to properly perform either a unilateral rostral maxillectomy or a central or segmental maxillectomy. Participants will be able to select which one of these maxillectomy procedures they would like to perform on a canine cadaver specimen by selecting the site and creating a simulated tumor on a cadaver specimen, measuring and marking the appropriate surgical margins, performing the maxillectomy procedure then closing the surgical site. **(AVDC Trainees ONLY)** Limited to 30 participants.

The Technician's Role in Endodontic and Prosthodontic Procedures - (AVDT Mentees ONLY) Limited to 20 participants.

Endodontics Learning Objectives:

- Recognize clinical presentations of endodontic pathology.
- Interpret diagnostic tests relevant to endodontic disease.
- Understand the equipment needs and procedures for vital pulp therapy.
- Understand the equipment needs and procedures for conventional root canal therapy.
- Understand the equipment needs and procedures for surgical root canal therapy.

Prosthodontics Learning Objectives:

- Understand the principles of prosthodontics
- Understand the equipment needs for tooth preparation
- Understand the equipment needs and procedure for impression taking
- Understand the equipment needs and procedure for crown placement

All labs are located at the Minneapolis Convention Center. See map page 7.

2016 VDF PROGRAM GRID - FRIDAY LABS

PRE-REGISTERED ATTENDEES ARE REQUIRED TO SIGN IN AT ROOM TO ENTER LABS.

TIME	MCC ROOM 101 B	MCC ROOM 101 C	MCC ROOM 101 D	MCC ROOM 101 G	MCC ROOM 101 H
8:00-10:00am	Feline Extraction Lab (J Huff)	Canine Radiography Lab Positioning for Perfect Rads (G Modrcin) Techs and DVM's	"Fill" Me in on the Latest in Restorations (lecture in lab) (M Peak and C Smithson)	Regional Nerve Blocks (B Gengler)	Comprehensive Periodontal Debridement Techniques & Instrumentation for Treatment & Prevention of Periodontal Disease (C Weldin and R Brannan)
10:00-12:00pm					
12:00-1:30pm	Box Lunches available in exhibit hall for registered attendees and exhibitors (1 each) **See schedule on page 4 for meetings held over the lunch hour.				
1:30-3:30pm	Fundamentals of Canine Dental Extractions (B Hall)	Feline Radiography Lab "Positioning for Perfect Rads" (P March) Techs and DVM's	Interfragmentary Wire Techniques (R Boudrieau and C Snyder)	Regional Nerve Blocks (B Gengler) <i>repeated</i>	Regional Nerve Blocks and Periodontal Therapies for Technicians (A Mills)
3:30-5:30pm

Make the leap to 3D scanning with **Xoran VetCAT™**

Intuitive and sharp 3D imagery

Innovative compact design

In-office, patient-friendly CT scanner **designed for dental veterinarians**

- ✓ **Efficient diagnosis** at the time you need the best information
- ✓ **Eliminate surprises** by seeing what you cannot with 2D images – view anatomy from any angle with precision
- ✓ **Control your images** – you set the location, angle, and quality for the best interpretation
- ✓ **Share data in real-time** with patient owners to discuss procedures
- ✓ **No room modification needed** – compact, upright, and mobile system moves into any room for easy setup
- ✓ **Patients and owners will be your biggest fans** – same visit diagnosis, non-invasive procedure for faster diagnosis and treatment

Come see the future
for dental veterinarians

#303

Founded in 2001, Xoran Technologies LLC is a leader of cone-based CT with more than two million scans. VetCAT is engineered and manufactured in the US.

VENDOR PRODUCT & SERVICE CROSS-REFERENCE GUIDE

The VDF has provided the following vendor product referral guide to help you cross reference products with participating vendors. The products identified below were submitted by vendor companies. Vendor products are represented only if the vendor supplied the requested information to the VDF by August 1st or had previous records on file. Please see the complete vendor list, following this cross reference page, for a full list of participating vendors and their product descriptions. The VDF does not endorse any product or company by publishing this listing or other vendor information in this program.

 **K9 SMILES**
EARLY WARNING DENTAL TEST

Your dog's kisses may contain more than just love

Harmful bacteria causes tooth problems and pain and puts your dog at risk for life-threatening illness.

An estimated 60 million dogs have gum disease by age 3. You can now identify the bacteria that commonly cause this problem at a very early stage.

K9 Smiles is a simple oral swab test that is recommended yearly to help keep your dog happy and healthy. The test is covered by most pet insurance plans when part of your vet's plan of care.

K9 Smiles™ from PetDNA Labs.

PetDNA Labs, a division of Access Genetics, offers the powerful K9 Smiles test for 3 pathogenic forms of oral bacteria known to cause periodontal disease and systemic illness. A simple oral swab is all that is needed for our PCR molecular technology to detect and quantify each of these harmful bacteria types. Together with a physical examination, a clear picture can emerge of when and how aggressively to treat. Repeat tests can be used to evaluate effectiveness of treatment. The MSRP is \$79 (discounted to vets) and the report is ready in about 3 days. It is covered by most pet insurance plans

Summit Hill Laboratories is a pioneer in veterinary dentistry and has been providing quality products to the veterinary field for over 40 years. Please stop by our booth to see our latest breakthrough product, the VETROSON® ILLUMINATOR 30K ULTRASONIC SCALER. Other products to be featured are our Millennium® 25/30 Scaler and Motor Pack, as well as the V10 Bi Polar Electrosurgery Unit and the VETROSON® Active Anesthesia Scavenger System, which can handle up to 25 anesthesia machines. In addition to our dental line we're proud to offer our 4th Gen VETROSON® Oxy-Gen Systems which can supply O2 for all your anesthesia machines & ICU cages. These easy to install units can provide substantial savings over tanked oxygen. Our products are known for their longevity and are often used in many veterinary schools and tech programs. Our knowledgeable

staff is happy to help with any questions or troubleshooting advice. Should your VETROSON® equipment ever need repairs, we provide quick and reliable service – often the same day. Please stop by booth #910 to see our line in person.

NOTES

Making shelter animals more adoptable since 2013

The Foundation for Veterinary Dentistry is a 501(c)(3) organization that promotes awareness of the importance of good oral care for companion animals, research, and education grants.

In 2013, The “Make Me Smile Project” was organized in concert with the generosity of veterinary equipment manufacturer, Dentalaire Products International. DPI provided equipment and Trustees of the Foundation volunteered training manpower at various animal shelters throughout the country. In 2016, Petco Inc. awarded a \$10,000 grant to the program.

The program is designed to give shelter veterinarians and technicians the training on providing comprehensive oral health, assessment and treatment (COHAT) of oral concerns for their animals that are placed for adoption. The COHAT will be conducted under general anesthesia and assessment will be done with full mouth radiographs and physical examinations.

It is known that poor oral health leads to physical ailments and temperament issues, all of which can render these animals not as desirable for adoption. It is the goal of this dedicated group of veterinarians, technicians and dental hygienists who specialize in veterinary dentistry to create awareness for shelter personnel so they can provide treatment in-house. Applications for the program are available at www.f4vd.org.

Veterinary Dentists offer free equipment and training to shelter veterinarians and technicians so adoptable dogs and cats can receive dental cleanings before adoption into new homes with the “Make Me Smile Shelter Project.”
